OUR APPROACH

Hearty Catering has been "green" from the beginning; our use of locally grown and organic food is a major component in creating our delicious cuisine.

We are proud to feature the wholesome bounty of local farmers and producers in all our menus. By doing so, we have proven that delicious flavours and good nutrition result from a commitment to supporting local producers and a sustainable food chain.

We have always used non-toxic cleaning, recycling and energy conservation measures in our kitchen.

These, along with other practices, are an integral part of Hearty Catering's philosophy of environmental stewardship.

We recommend and provide rental of china, cutlery and glassware upon request.

We offer biodegradable and compostable plates, cups and utensils at a nominal fee for informal gatherings.
